

Welcome to the Montana Stockgrowers Association!

The Montana Stockgrowers Association (MSGA) is a non-profit membership organization that has worked on behalf of Montana's cattle ranching families since 1884. While the first years of the association were very important for the burgeoning cattle industry in Montana, throughout its history MSGA has continued its work promoting a positive business environment for cattle ranchers. The association has continued to work through state and national legislative and regulatory channels to achieve the goals and needs of its members in regards to issues such as cattle theft, cattle diseases, federal lands grazing, predators and endangered species, international trade, and taxes.

Mission

Our mission is to protect and enhance Montana ranch families' ability to grow and deliver safe, healthy, environmentally wholesome beef to the world. We work to achieve our mission by representing our members and the policy they set at the Montana Legislature and U.S. Congress, with governmental agencies, in the media, and by promoting the work of Montana's family ranchers to the general public.

Cattle Industry Today

The beef industry is important to the fabric of this nation – environmentally, nutritionally and economically. Our industry also sits squarely in the middle of some of the most complex, controversial and challenging public policy debates. Issues relating to:

- Trade
- Food safety and nutrition
- Energy
- Taxes
- Environment

Because cattle producers are directly impacted by dominate legislative and regulatory agendas, MSGA's work to resolve of these issues will define the future of our industry.

MSGA Local Affiliates

MSGA is also proud to be affiliated with 23 local stockgrower groups throughout Montana. These affiliates often bring resolutions from their local area to MSGA's Mid-Year Meeting and Annual Convention to be considered for MSGA policy by the membership.
